The Freycinet 2

A single garage version of the original Freycinet is the only change to this design, allowing you the option of having a narrow block that still features a great design.

Block sizes are estimates only and based on standard Developer setback and Rescode setback of 4 - 5m front only and 3m rear setback. Plans, facades and specifications vary depending on zone and region. All designs are priced to the traditional facade associated with the range, all other facades are considered upgrades and will incur charges unless otherwise specified.
